

INFORMATION BULLETIN 2

Riocentro | Rio de Janeiro | Brazil
26-31 July 2015

IPS031 Room: 205	Computational complexity of statistical algorithms suitable for analysis of nonstandard big data Organiser and Chair: <i>Francesco Mola</i> What computational complexity theory tells us about some problems in interval data analysis <i>Michal Cerný, Milan Hladik</i> Background subtraction in image segmentation <i>Luca Frigau, Claudio Conversano, Francesco Mola</i>
IPS105 Room: 101	IASS President's Invited Session: Sample Surveys: Past, Present and Future Directions Organiser and Chair: <i>Danny Pfeffermann</i> Sample Survey Theory and Methods: Past, Present and Future Directions <i>Jon Rao</i> <i>Wayne A. Fuller</i>
IPS108 Room: 207	ISBIS - ASMBI Journal Invited Paper Session Organiser and Chair: <i>Fabrizio Ruggeri</i> Sparse Bayesian Latent Factor Stochastic Volatility Models for High-Dimensional Financial Time Series <i>Hedibert Lopes</i>
IPS111 Room: 201AB	Special Invited Lecture: The Evolution of Nonparametric Statistics Organiser and Chair: <i>Francisco Samaniego</i> The Evolution of Nonparametric Statistics <i>Myles Hollander</i>
IPS145 Room: 210	Special Invited Lecture: Large Dimensional Random Matrices - Some Models and Applications Organiser: <i>Vijay Nair</i> Chair: <i>Nancy Garcia</i> Large Dimensional Random Matrices: Some Models and Applications <i>Victor Perez-Abreu</i>
OR-D01 Room: 202A	Statistical Education 1 Functional Training and Its Impact on Development The Statistical Awareness: Prospective from Egypt <i>Waleed Mohammed</i> Latent growth and statistical literacy. Some evidence from Italy <i>Emma Zavarrone, Corrado Crocetta</i> Two activities to improve statistics courses for future mathematics teachers <i>Marcos Magalhães</i> A comparative study of statistical inference from an educational point of view <i>Manfred Borovcnik, Ramesh Kapadia</i>
