

Publicaciones: Análisis Aplicado y Sistemas Dinámicos.

- Oscillatory behavior in discrete slow power-law models S Jerez, E Pliego, FJ Solis Nonlinear Dynamics 102 (3), 1553-1566, 2020.
- Qualitative and asymptotic analysis of repulsion systems with diverse applications FJ Solis, F Sanchez, LM Gonzalez Journal of Difference Equations and Applications, 1-17, 2024
- Convergence for Slow Discrete Dynamical Systems with Identity Linearization A Sotolongo, FJ Solis Differential Equations and Dynamical Systems 30 (4), 885-891, 2022
- Pursuit on regular surfaces with application to consensus problems FJ Solis, C Yebra Nonlinear Dynamics 105 (4), 3423-3438, 2021
- A component free derivation of Backpropagation in deep learning MA Moreles International Journal of Artificial Intelligence 20 (2), 2022
- Ocean surface radial velocity imaging in the AT-INSAR velocity bunching model. A functional approach F Perez, MA Moreles, H Morales-Barcenas Radio Science 56 (12), 2021
- Equivalence of DEC and box methods for the diffusion–advection–reaction equation R Carrillo, MA Moreles, R Herrera Boletín de la Sociedad Matemática Mexicana 27 (2), 35, 2021
- Multidimensional discrete dynamical systems with slow behavior FJ Solis, BM Chen-Charpentier, HV Kojouharov Differential Equations and Dynamical Systems 29, 645-656, 2021
- From Backward Approximations to Lagrange Polynomials in Discrete Advection–Reaction Operators FJ Solis, I Barradas, D Juarez Differential Equations and Dynamical Systems 29 (2), 363-375.
- Structural Stability of a Family of Exponential Polynomial Maps F Solis, S Jerez, R Ku-Carrillo, S Delgadillo Mathematical and Computational Applications 25 (2), 20, 2020
- Convergence on two dimensional 1-slow discrete dynamical systems FJ Solis, A Sotolongo Differential Equations and Dynamical Systems 28 (2), 357-371, 2020
- Evolution of an exponential polynomial family of discrete dynamical systems, F Solis Mathematical and Computational Applications 24 (1), 13
