

Publicaciones del área de Probabilidad y Estadística.

Practical and Optimal Likelihood Intervals and Regions for Weibull and Gumbel Distributions

2024 Technometrics

Eloisa Díaz-Francés Murguía,

Modeling and statistical analysis of growth and shape problems of the brown crab *Callinectes bellicosus*

2024 Latin american journal of aquatic research

Enrique Raúl Villa Diharce, Enrique Villa-Diharce, María Guadalupe Russell-Noriega, Guillermo Rodríguez-Domínguez

An extended multiplicative error model of allometry: Incorporating systematic components, non-normal distributions, and piecewise heteroscedasticity

2024 Biology Methods and Protocols

Rodrigo Macias Paez, José Fernando Vera Vera, Ricardo Subiabre

Life Cycle and Natural Mortality Rates of the Blue Spiny Lobster (*Panulirus inflatus*)

2024 Journal of Shellfish Research

Octavio Arizmendi Echegaray, Saylé Sigarrete Ricardo

A Levy–Itô decomposition on a class of topological monoid

2024 ESAIM: Probability and Statistics

Gerardo Pérez Suárez, Ulises Pérez Cendejas

Dating the Mexican business cycles since 1980 by disentangling the monthly economic activity

2024 Journal of Business Cycle Research

Graciela María de los Dolores González Farías,

Convex Decreasing Algorithms: Distributed Synthesis and Finite-Time Termination in Higher Dimension

2024 IEEE Transactions on Automatic Control

James Christopher Melbourne,

On a Conjecture of Feige for Discrete Log-Concave Distributions

2024 SIAM Journal on Discrete Mathematics

James Christopher Melbourne,

Estimates for exponential functionals of continuous Gaussian processes with emphasis on fractional Brownian motion

2024 ALEA, Lat. Am. J. Probab. Math. Stat.

Juan Carlos Pardo Millán, William da Silva

Bayesian Approaches to Proxy Uncertainty Quantification in Paleoecology: A Mathematical Justification and Practical Integration

2024 Journal of Agricultural, Biological, and Environmental Statistics

José Andrés Christen Gracia,

Dynamic survival analysis: Modelling the hazard function via ordinary differential equations

2024 Statistical Methods in Medical Research

José Andrés Christen Gracia,

Modeling evolutionary power spectral density functions of strong earthquakes via copulas

2024 Soil Dynamics and Earthquake Engineering

José Andrés Christen Gracia,

Modelling chronologically ordered radiocarbon dates in R

2024 Radiocarbon

José Andrés Christen Gracia,

Alpha-stable branching and beta-frequency processes, beyond the IID assumption.

2021 Electronic Communications in Probability

José Luis Ángel Pérez Garmendía,

An optimal multibarrier strategy for a singular stochastic control problem with a state-dependent reward

2020 Applied Mathematics and Optimization

José Luis Ángel Pérez Garmendía,

Loewner Theory for Bernstein Functions I: Evolution Families and Differential Equations

2024 Constructive Approximation

José Luis Ángel Pérez Garmendía,

Non-zero-sum optimal stopping game with continuous versus periodic observations.

2024 Mathematics of Operations Research.

José Luis Ángel Pérez Garmendía,

Optimal dividends and capital injection: A general Lévy model with extensions to regime-switching models.

2020 Insurance: Mathematics and Economics

José Luis Ángel Pérez Garmendía,

The ancestral selection graph for a Λ -asymmetric Moran model

2019 Theoretical Population Biology

José Luis Ángel Pérez Garmendía,

The relative frequency between two continuous-state branching processes with immigration and their genealogy.

2024 The Annals of Applied Probability

José Luis Ángel Pérez Garmendía,

Passive Control of the Flow Around a Rectangular Cylinder with a Custom Rough Surface

2024 Fluids

José Luis Márquez Urbina, Mario A. Aguirre-López, Filiberto Hueyotl-Zahuantitla, Pedro Martínez-Vázquez

Lévy Bandits Under Poissonian Decision Times

2024 2021-2022 MATRIX Annals

José Luis Pérez, Kazutoshi Yamazaki

Nonzero-Sum Optimal Stopping Game with Continuous vs. Periodic Exercise Opportunities

2024 Mathematics of Operations Research

José Luis Pérez, Neofytos Rodosthenous, Kazutoshi Yamazaki

La replicabilidad en la ciencia y el papel transformador de la metodología estadística de knockoffs

2024 SahuarUS. Revista Electrónica de Matemáticas

José Ulises Márquez Urbina, Alejandro Román Vásquez, Gabriel Escarela, Gabriel Núñez-Antonio

Cutoff ergodicity bounds in Wasserstein distance for a viscous energy shell model with Lévy noise.

2024 Journal of Statistical Physics

Juan Carlos Pardo Millán, Gerardo Barrera, Michael Hoegele, Ilya Pavlyukevich

Explosion Rates for Continuous-State Branching Processes in a Lévy Environment

2024 Journal of Theoretical Probability

Juan Carlos Pardo Millán,

Multitype self-similar growth-fragmentation processes

2024 ALEA Latin American Journal of Probability and Mathematical Statistics
